Beauty Beat. Makeup For Awareness

Makeup that protects skin, won't melt off in the heat and protects children from the harmful rays of the sun?!? Genius! Well Susan Posnick has done just that. Susan Posnick cosmetics is supporting the Skin Cancer Awareness Foundation's Shade Across America program by donating a portion of May's sales of the **COLORFLO mineral foundation with SPF 26** to the program. The program dedicated to providing sun protection for children, supplies shade covering to schools across the country.

The program will run through May.
